Aqua Fit:
This water workout has you working out as hard as you do on land (maybe harder!) – but without the joint, muscle and tendon stress.

Barre Mix:
Low impact, classic interval training designed to burn fat and sculpt lean muscle. Learn careful movements that will increase endurance and reform your body.

BodyCombat (Les Mills):
This fiercely energetic program is inspired by mixed martial arts and draws from a wide array of disciplines such as karate, taekwondo, tai chi and muay thai.

Cardio Dance:
A simple, low impact dance-based exercise program suitable for all levels and ages. This program provides a fun, aerobic workout that incorporates dance styles such as Latin, Hip Hop, Broadway, Belly Dance, Country, and more.

Full Body Conditioning:
Get back to the basics to develop and strengthen the core and glutes as well as get your heart rate up. Adaptable for most fitness levels.

Inanity Bootcamp:
Challenge your lungs AND your muscles with this combination class that will get your heart rate up with Insanity brand High Intensity Interval Training (HIIT) combined with strength training.

Power Yoga:
This practice will combine low-impact flexibility-enhancing hatha movements with long holdings for deep muscle engagement. This class will challenge muscular endurance and build strength, while vinyasa sequences (fast flow) increase cardiovascular fitness.

Spinning:
An indoor endurance workout on a stationary bike, training bodies and minds to simulate riding on the road.

Strong & Flexible:
Active flexibility, mobility, and bodyweight strength training from across disciplines (yoga, pilates, and martial arts) for a core-busting, functional-strength-building, mobility-increasing practice!

Tabata/HIIT:
Total body conditioning through High Intensity Interval Training (HIIT).

Vinyasa Yoga:
This class is designed for intermediate and athletic students who like to move. The flow and rhythm of a vinyasa class links asana (postures) with breath to create moderate-to-challenging moving meditation.

Yin Yoga:
Unwind and release tension with a series of practices designed to stimulate the meridians. This is a no-impact practice that stretches the joints and tissues to restore mobility.
