ALL REFORMER CLASSES ARE LIMITED TO 4 PEOPLE

Pilates Reformer:

Pilates Reformer classes offer all the benefits of traditional mat Pilates while using a specialized piece of equipment called the reformer. The reformer is a bed-like frame with a flat platform on it, called the carriage, that rolls back and forth on wheels within the frame. The carriage is attached to one end of the reformer by a set of springs. Most Pilates reformer exercises involve pushing or pulling the carriage or holding the carriage steady as it is pulled on by the springs. The springs can be adjusted to change the resistance and thereby personalize the exercises to your own level. Exercises can be done lying down, sitting, standing, pulling the straps, pushing the footbar, perched on the footbar, perched on the shoulder blocks, with additional equipment, upside down, sideways, and many other variations. The wide variety of exercises that can be done on the reformer promote length, strength, flexibility, and balance. These important aspects of fitness lead to better posture, graceful and efficient movement, and even potential relief from pain associated with physical imbalances and tension.

Introductory 6 Pack:

Are you new to the Pilates reformer? To help you ease into using the reformer, we offer our introductory 6 Pack*.

For the first three sessions of the 6 pack, you will meet with one of our Certified Pilates Instructors one-on-one and be guided through basic Pilates movements, settings and positions. These personalized sessions will help you figure out your individual settings on the Reformer, provide you and our instructors with information about your alignment, and ensure that you understand how to use this piece of equipment when you move to the group setting.

*a requirement for anyone new to our Pilates Reformer classes.

Air Exchange System:

The air completely exchanges every 5 minutes in our Pilates Studio. Visit our website to learn more about our air exchange systems throughout the Club.
