***Pilates Reformer:** Pilates Reformer classes offer all the benefits of traditional mat Pilates while using a specialized piece of equipment called the reformer. The reformer is a bed-like frame with a flat platform on it, called the carriage, that rolls back and forth on wheels within the frame. The carriage is attached to one end of the reformer by a set of springs. Most Pilates reformer exercises involve pushing or pulling the carriage or holding the carriage steady as it is pulled on by the springs. The springs can be adjusted to change the resistance and thereby personalize the exercises to your own level. Exercises can be done lying down, sitting, standing, pulling the straps, pushing the footbar, perched on the footbar, perched on the shoulder blocks, with additional equipment, upside down, sideways, and many other variations. The wide variety of exercises that can be done on the reformer promote length, strength, flexibility, and balance. These important aspects of fitness lead to better posture, graceful and efficient movement, and even potential relief from pain associated with physical imbalances and tension.

Spinning: The ultimate cardiovascular workout. Pedal through hill climbs, sprints, and many other challenging drills – all while jamming out to an exciting, instructor-customized soundtrack. First-timers should arrive early for proper bike fitting. All levels.

Vinyasa Yoga: This class is centered on stringing postures (Asanas) together, flowing from one move to another, seamlessly, using breath.

Yin Yoga: A slow, reflective practice that targets the deep connective tissues, releases tension, and creates space and ease in body and mind. This practice complements other types of yoga and exercise. All levels.

Zumba®: We take the "work" out of working out by mixing low-intensity and high-intensity moves for an interval-style, calorie burning, dance fitness party. All levels.
